

## KEEPING A TAB ON YOUR TECHNOLOGY

Technology is wonderful: automatic deposits, payments, transfers, no missed deadlines on payments or transfers, etc. It saves time, money, gas, etc. but..... we all know technology does not replace the person. As much as technology takes care of things for us, we need to make sure technology is doing its job and doing it correctly.

Helpful hints on keeping a tab on your technology:

- ✓ Regularly check ATM transactions
- ✓ Set aside a regularly scheduled specific time (i.e. payday) to double check transfers, payments, deposits, etc.
- ✓ Review your balances on all your accounts (checking, savings, loans, Visa's, etc.) on a regular basis

Keep a tab on your technology with these great tools:

- ✓ E-statements (easily available and not lost in a pile of papers)
- ✓ Mobile Apps
- ✓ Home banking
- ✓ Money Desk Top (available through home banking)

**We are closed Tuesday, July 4**

## Start Packing

**Pack for vacation while you  
pack up savings with our  
Summer Vacation Loan Special.**

**\$2,500 for 12 months**

**Rates starting at 4.25\***

\*Annual Percentage rate - individual rates may vary. Rate based on Fair Isaac Score and current ability to pay.

### Summer Travel Safety Tip:

**When using your Debit or Credit card, be sure to check the scanning/dip machine. Make sure that it is solid, secure, and nothing is loose or has been "added" to it. Touch the scanner to see if it is loose or if it shakes at all. If it does, DO NOT USE and report immediately to the merchant (this is particularly important at gas stations). When accessing an ATM, be sure that it is in a safe location and no one is observing you while you enter your PIN number. Wishing you safe and secure travels, all year long.**
